THIS ADDITION CREATES a strong connection to the new patio—even from the rear of the kitchen, the eye is drawn to the garden terrace.

house. A long buffet counter under a dark-painted steel beam divides cooking from dining areas and creates a stagelike frame for the chef. French doors set into a window wall connect the dining area to the patio for easy indoor-outdoor living.

DESIGN: Trout Architects/Chartered, Boise (208/344-8646)

HANGING LIGHTS: Flos USA (800/939-3567)

COUNTER SURFACE: Jaymark Cabinets, Boise (208/322-7981)

## The glass bay idea

**Problem.** Develop a new kitchen and dining area that would brighten the existing house and connect it to the landscape. The owners also wanted to “showcase the cook and provide a dynamic space for enter-

taining,” says the architect.

**Solution.** A “bistro” addition opens to the house’s central stairway and a rear terrace. It’s a vaulted pavilion (including 348 square feet of new space) attached to one corner of the
